M: 09820203026

A visionary in automation and to move in line with the global trends, Jigar is the Founding Partner of TMSL Group. He is a Chartered Accountant by qualification and has over 18 years of extensive experience in the field of indirect taxation. His domain of expertise includes GST, Customs, erstwhile Indirect Taxes and Tax technology.

Jigar lives and believes in serving tax, technologically which is also the motto of TMSL. His tax technology solutions and innovations are based and delivered on the foundation of automating everything that can be automated. With this practice, Jigar has been delivering distinguished tech solutions for his clients. He has transitioned from being a tax-man to tax tech-man in his journey.

He has substantial work experience in advisory, compliance, refunds, assessments, representation, litigation and tax technology. He has assisted corporates on the optimization of indirect tax costs, process costs and improving efficacy multifold by way of deploying tailored technological solutions. He has been working on clients with various industries with a focused approach on banking, FII, and information technology.
